Claims 1-10 are pending in this application.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 provides for the use of m-diaminobenzenes, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

- 2 Claim 10 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Rejections - 35 USC § 102

- 3 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1751

Claims 1-2 and 4-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Genet et al. (US 6,461,389 B1).

Genet et al. (US' 389 B1) teaches a hair dyeing composition comprising a compound having a formula identical to the claimed formula (I), when in the claimed formula (I), Ar is a substituted imidazol group as claimed in claims 1-2, 4 and 9-10 (see col.19, claim 8 and STIC Search Report at page 17), wherein the compound presented in the composition in the claimed amount as claimed in claim 5 (see col.8, lines 1-3), wherein the composition also comprises an additional couplers as claimed in claim 6 (see col. 9, lines 12-14), hydrogen peroxide as an oxidant as claimed in claim 7-8 (see col. 10, lines 53-66). Genet et al. (US' 389 B1) teaches all the limitations of the instant claims. Hence, Genet et al. anticipates the claims.

Allowable Subject Matter

4 Claim 3 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record do not teach or disclose the species of the claimed formula (I).
